

Introducing Scandinavia

You have probably heard about the **Vikings**, read the fairytales of **Hans Christian Andersen** or bought your furniture at **IKEA**.

But did you know, for example, that we wouldn't call the weekdays Tuesday, Thursday and Friday if it hadn't been for the **Vikings** and their **Gods: Tyr, Thor and Freya?**

Or that Danish philosopher **Søren Kierkegaard** has been one of the most read and discussed philosophers in the 20th Century, and that the plays of Norwegian playwright **Henrik Ibsen** are the second most staged after Shakespeare?

Or that we are called "**homo sapiens**" because of **Carl von Linné**, an 18th Century Swedish scientist?

Indeed, Scandinavia has a long and strong cultural tradition. We offer you an excellent opportunity to learn more.

Scandinavia Today

Present day Scandinavia is dominated by **wealth**, innovation and **creativity**. The social welfare system, public support to students and **equality** between the sexes are among the most striking trademarks of these countries.

Swedish women were the first in the world to get **voting rights**, and Denmark was one of the first countries to offer **public education**.

Today Scandinavia benefits from these early initiatives: information technology, **fashion**, **arts** and **design** dominate the new job market in this era of globalization.

IKEA (Swedish), **Skype** (Danish/Swedish) and **Nokia** (Finnish) were voted the number 1, 2 and 3 best brands in Europe in January 2007, reflecting the development in this dynamic region.
